

# Home Learning Tasks

# Year Two Spring Two

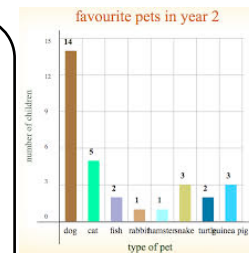

## Literacy

We are working on instruction writing, ask your child to read instructions for games and recipes. Play a game, build a model or bake from a recipe. Can they underline imperative verbs or make any of the instructions clearer? Take some photos. of how they did or bring in some examples!

## Maths

Practise times tables and number bonds with your child, as this will support their problem solving in school. Try some data handling work, children could ask family or friends about favourite colours, pets etc and present their work using tallying, bar charts, pictograms. There are some good websites online- bbc bitesize, woodlands maths.

## Topic

Choose a cereal or a vegetable plant. Using a full page, draw and label it, using words like stem, seed, root, shoot, leaf etc.

## Reading

Reading a range of books, magazines and information texts with your child regularly will help many areas of the curriculum. Please encourage children to write their own comments in their record, as well as your own. We are still working hard on learning and spelling keywords, any extra practise will be beneficial!

## Science

Keep a food diary for a week. Can you work out which foods belong to which food groups-  
Fruit and vegetables  
Cereals  
Dairy  
Fats and sugars  
Meat and Fish  
Which are important for a healthy diet? Why?

## Topic

Choose a crop or animal that is farmed. How are they kept, what do they eat, what is the animal or crop used for e.g. wheat, bacon etc.

## Art and Design

Can you create a farm landscape, in the style of an artist like, Monet or Constable. It could be in watercolour, collage or drawn, it's your choice.
