

Think

- How many of these items can you name?
- Do you know what they are all for?
- What is first aid?
- What else would you add?

Respond

What should you do if you are with someone who is hurt? What do you think would be your course of action? Research what you should do and create an eye-catching poster to inform other children what they should do.

Reimagine

Design a brand new uniform for paramedics. Which materials would you use? What equipment would they need to carry?

Discover

Fact: St John Ambulance is a voluntary organisation that provide first aid in the community and at public events. In times of crisis they will help the emergency services. Their history is fascinating and can be dated back to 11th century Jerusalem.

Question: What can you find out about the Order of St John? Where does it operate? How many members does it have worldwide?

Solve

Oak Tree Primary has a first aid kit in every classroom. There are 14 classrooms in total. Each class was given 20 plasters at the beginning of the year, but due to a lot of grazed knees there are only 28 plasters in the whole school by half term. How many have been used?

Challenge: How many would be used by the end of the school year at this rate? There are 6 half terms in a school year.

Discuss

If you saw someone who had been injured and there was no adult around, what would you do? Would you call for help? Would you try to help the person yourself? Do you know how to perform first aid? Is it something everyone should know, at any age?

First Aid Answers

How many have been used?	How many would be used by the end of the school year at this rate?
<p>20 plasters \times 14 classes = 280 plasters</p> <p>$280 - 28 = 252$</p> <p>252 plasters have been used in the first half term.</p>	<p>$252 \times 6 = 1512$ plasters for the whole school year.</p>
