

## RADIO SHOW CHALLENGE!

Write, present and record your own radio show! This is a big project to work on over a couple of weeks.

\*First of all, decide upon a name for your Radio station. Who are your target audience, young children? Older children? Sports fans? Design and make a poster and logo advertising it.

\*Next, decide what sort of things to include in your show. Try to include the following:

\*News and Sport items, with interviews. (These could be local news items of things happening on the Isle of Man, or news items that are happening around the world....remember you'll need to research to get your facts right!)

\*Jingles

\*Adverts

\*Music

\*Presentation links between items.

\*Weather/Travel

Listen to, and look at news and weather clips to help you.

Write a plan and timeline for your radio show, and research, prepare and record it. You can get music from the internet, and make sure you research news items carefully.
